# Eniyanilavan Ravisankar

## Java | Backend Developer

39, Sivasakthi Nagar, Murugapakkam, Puducherry - 605004

+91 9043172962

[r.eniyanilavan@gmail.com](mailto:r.eniyanilavan@gmail.com)

<https://github.com/Eniyanilavan>

Enthusiastic and quick-learning developer eager to work with new technologies to improve people's lives.

## EXPERIENCE

### **Amazon (Keys - Ring), Bangalore** - *Software Development Engineer 2 - Java/Kotlin | Backend*

July 2024 - Present

- I am currently in charge of designing and maintaining an internal Amazon portal that supports customer service and provides business insights.

### **Amazon, Bangalore** - *Software Development Engineer - Java | Backend*

May 2022 - June 2024

- Took ownership and Migrated one of the services owned by my team to AWS ECS stack from AWS Lambda end to end. This ECS service is being used as reference by the team to migrate other micro services owned by the team. Latency of one of the service API in the old lambda stack was 1.1 seconds, after migrating to ECS this was reduced to 871 milliseconds.
- While our team was onboarding a new use case which involves cross region call, we were experiencing high latency around 3.1 seconds for one of the API. I did the dive deep and found some critical issues in the existing code which was causing the high latency and optimized it to 788 ms.
- Top performer in the team with year end rating of Exceeding Expectations.

### **Zoho, Chennai** - *Member Technical Staff - iOS*

July 2020 - 2022

- Owner for A/V module (one to one / group calls) in Zoho Cliq iOS app.
- Built A/V (one to one / group calls) framework using webRTC, which is used in Cliq and to be used across all products (iOS/macOS) in Zoho.

---

## **Zoho, Chennai - *Internship***

(17th Aug 2019 - 30th Oct 2019)

- Built Integrations for Zoho Cliq platform.
- Minor features for Zoho Cliq iOS app like orientation support (for particular windows).
- Support for Prime Time viewing in Cliq iOS app.

## **EDUCATION**

**Sri Manakula Vinayagar Engineering College, Puducherry - *B.Tech. Computer Science and Engineering. CGPA: 8.42***

2016 - 2020

**St. Patrick Metric Higher secondary school, Puducherry - *Higher secondary. 89.5%***

2016

**St. Patrick Metric Higher secondary school, Puducherry - *Secondary schooling. 93%***

2014

## **Programing LANGUAGES**

### **Proficient:**

- Java
- Kotlin
- TypeScript
- Javascript

### **Side Hustles:**

- Swift (Previous Org)
- Python
- C/C++

## **FRAMEWORKS**

### **Proficient:**

- Dagger
- SpringBoot
- AWS Cloud Deployment Kit

### **Side Hustles:**

- UIKit (Swift) (Previous Org).
- webRTC(iOS/macOS) (Previous Org).
- ExpressJS.
- ReactJS

## SKILLS

**Proficient:**

- Backend Development (Java/NodeJS).
- Amazon Web Service.

**Side Hustles:**

- iOS Development (swift)  
(Previous Org).
- Backend Development  
(Python).
- Front End Development  
(ReactJS).

## PERSONAL PROJECTS:

- **Su Pilvi** is a cloud based solution to ease the process of setting up a cloud environment. We aim to simplify the process of setting up a cloud environment where anyone can host an application in the cloud with just a matter of a few clicks. Su PILVI lets you connect all needed services to host web applications. Su PILVI has a portal where you can drag and drop the component and draw an architecture for the server and its components (<https://github.com/Eniyanilavan/su-pilvi-client>).
- **An ORM in python** for PsqL. This has been used in the online Code Editor Project (<https://github.com/Eniyanilavan/ORM>).
- **Online Compiler:** Students can practice and improve their coding skills through this web application.  
(<https://github.com/Eniyanilavan/Tutelage-Server>,  
[https://github.com/Eniyanilavan/Tutelage\\_WEB](https://github.com/Eniyanilavan/Tutelage_WEB)).
- **8085 Emulator** for android  
(<https://play.google.com/store/apps/details?id=com.finished.eniyanilavan.a8085emulator>).

## AWARDS / RECOGNITIONS

- Won 2nd place in Unisys Cloud 2020 competition (2020) for my project SU PILVI.
- Special mention  
[https://www.linkedin.com/posts/zoho-cliq\\_meet-the-cliq-squad-ugcPost-6857184388027965440-7wQ](https://www.linkedin.com/posts/zoho-cliq_meet-the-cliq-squad-ugcPost-6857184388027965440-7wQ)
- Completed 4 challenges in google-foobar  
<https://github.com/Enivanilavan/google-foobar>.
